PROFESSIONAL SUMMARY

Adaptable Electronics Engineering graduate (Batch 2026) with 240 hours of hands-on technical support training in access control, biometric devices, CCTV/video systems, low-voltage wiring, configuration, testing, and troubleshooting. Brings proven customer service, operations, and independent field experience, with a strong record of reliability, teamwork, and clear communication in fast-paced environments.

CORE SKILLS

Access Control & Biometrics | CCTV & Video Management | Low-Voltage Wiring | Hardware Installation | System Configuration & Testing | Basic Networking & Command-Line Tools | Technical Documentation | Customer Support | Time Management & Teamwork

EXPERIENCE

Technical Support Intern | MTECH Biometrics Ltd. Corporation Jun 3 - Jul 30, 2026 | 240 hours

- Configured, calibrated, and tested access-control and biometric terminals, including AC-1100, Ubio-X Face, Ubio-X Pro, and Nitgen Fingkey Access devices.
- Installed and verified low-voltage wiring for door, elevator, boom-barrier, and turnstile access systems; supported equipment setup for client demonstrations.
- Configured CCTV/video platforms, visitor management, face recognition, and license-plate recognition tools using Ubio Alpeta, AxxionSoft, and Milestone VMS.
- Performed system diagnostics, workstation maintenance, device integration, log verification, and technical documentation while following safety and confidentiality requirements.

Customer Service Representative | Telepro Limited Corp. Jan 2024 - Feb 2025

- Resolved customer inquiries through phone and chat while maintaining accuracy, professionalism, and service quality during high-volume interactions.

Part-Time / On-Call Delivery Rider | Foodpanda Philippines Jan 2021 - Present

- Manage delivery schedules independently, completing orders reliably while handling routes, timing, and customer concerns.

Service Crew / Production / Maintenance | McDonald's Biñan Highway Feb 2019 - Feb 2022; Aug 2022 - May 2023

- Supported service, production, transactions, and routine maintenance while adapting quickly to shifting operational priorities in a fast-paced environment.

EDUCATION & TRAINING

Bachelor of Science in Electronics Engineering | AMA Computer College - Biñan Campus Batch 2026

Electrical Installation and Maintenance Training | Santa Rosa Manpower Training Center | Completed 2024

Additional Certificates | SMART Technopreneurship 101; English for Business and Entrepreneurship | Sep 2025
